## Specific interest income items

Fair value adjustments - the acquisition of the business activities of Rural Finance resulted in the recognition of fair value adjustments on the loans acquired. These fair value adjustments are amortised over the life of the underlying transactions.

Homesafe funding costs - unrealised - interest expense incurred on existing contracts for the current year.

## Specific other income items

Revaluation losses on economic hedges - represents unrealised losses from changes in the fair value of economic hedges. These movements represent timing differences that will reverse through eamings in the future.

Homesafe revaluation gain - represents the valuation movements of the investment property held.

## Specific operating expense items

Sale of Merchant Services business - represents proceeds less costs of disposal relating to the sale of the Merchant Services business to Tyro Payments Limited.

## Other specific items

Homesafe revaluation gain - realised - represents funds received on completion, being the difference between the cash received on completion less the initial funds advanced.

Homesafe funding costs - realised - represents accumulated interest expense on completed contracts since contract initiation. These costs have previously been excluded from cash earnings during the financial year they were incurred. These adjustments align the realised income and funding costs within the same period.

Refer to prior period Appendix 4E ASX result releases for details of prior year specific items.
2.2.2 Net interest margin (before revenue share arrangements)

Asset impact - Pricing pressure on variable and fixed lending portfolios was partially offset by favourable variable mortgage repricing following cash rate decreases.

Asset mix - An increase in the average balance of lower yielding fixed rate loans compared to variable loans and an increase in the average balance of the Group's liquid assets.

Liability pricing - Favourable movements from term deposit and wholesale funding repricing.

Liability mix - The continued strong at-call deposit growth has had a positive impact on the total cost of deposits funding.

Equity contribution - Margin contraction given the cash rate decreases.

Comments on individual income categories when compared to the previous corresponding period are:
Net interest income increased by $\$ 84.8$ m or $6.3 \%$ largely as a result of growth in the lending portfolios, offset against a contraction in net interest margin (FY 21:2.26\%, FY 20:2.33\%).

Fee income increased by $\$ 3.2 \mathrm{~m}$ or $2.1 \%$ primarily due to an increase in lending related fee income as a result of higher lending volumes,
partially offset by a reduction in deposit and other fees.
Commissions and management fees decreased by $\$ 3.1 \mathrm{~m}$ or $5.5 \%$ mainly due to reductions in the management fees earned by Sandhurst Trustees Limited from the managed funds directly linked to margin contractions.

Foreign exchange income decreased by $\$ 3.5 \mathrm{~m}$ or $15.5 \%$ as a result of a decrease in foreign exchange transactions directly attributed to a decrease in international trade activities due to COVID-19.

Trading book income decreased by $\$ 9.5 \mathrm{~m}$ or $84.8 \%$ primarily due to impacts on trading activity following the Reserve Bank of Australia's actions that included the lower cash rate, Y ield C urve C ontrol and Q uantitative Easing.

Homesafe revaluation gain was $\$ 101.7 \mathrm{~m}$ or $282.5 \%$ higher due to continued strong grow th in residential property markets in both Melbourne and Sydney and a change in the valuation assumptions. Refer to section 2.2 .4 for further detail.

Revaluation losses on economic hedges increased by $\$ 4.9 \mathrm{~m}$ or $153.1 \%$. Refer to 2.2 .1 for further detail.

Comments on individual expense categories when compared to the previous corresponding period are:
Staff and related costs increased by $\$ 22.7 \mathrm{~m}$ or $4.0 \%$. This increase is attributed to an increase in staff costs as well as an increase in redundancy costs ( $\mathrm{FY} 21: \$ 14.1 \mathrm{~m}, \mathrm{FY} 20 \$ 10.8 \mathrm{~m}$ ). Staff costs have increased to support transformation initiatives, greater investment in risk and compliance capabilities, and residential lending growth.

Information technology costs increased by $\$ 8.5 \mathrm{~m}$ or $12.0 \%$ due to an increase in software licence fees incurred in relation to transformation initiatives, including Open Banking.

Other administration expenses decreased by $\$ 11.1 \mathrm{~m}$ or $7.9 \%$ predominantly due to reductions in travel costs and legal fees, partially offset by increases in consultancy fees and other professional fees such as insurance premiums, regulatory levies and fees, and loan establishment fees.

Specific items decreased by $\$ 151.8 \mathrm{~m}$ or $97.9 \%$. Refer to 2.2.1 for further detail.

### 2.2.7 Segment results

## Segment reporting

An operating segment is a component of the Group that engages in business activities from which it earns revenues and incurs expenses. Segment reporting reflects the information that is used by the Managing Director for the purposes of resource allocation and performance assessment, hence it is consistent with the internal reporting provided to the Managing Director and the Executive Team.

Changes to the management structure of the Group can cause the Group's operating segments to change. Where this occurs, prior period segment results are restated. A description of each of the Group's segments has been provided below.

## Consumer

Consumer focuses on engaging with and servicing consumer customers and includes the branch netw ork (including Community Banks and Alliance Banks), mobile relationship managers, third party banking channels, wealth services, Homesafe, call centres, and consumer support functions such as the processing centres.

## Business

Business focuses on servicing business customers and includes business banking, Portfolio Funding and Delphi Bank.

## A gribusiness

Agribusiness includes all banking services provided to agribusiness, rural and regional Australian communities through Rural Bank.

## Corporate

Corporate includes the results of the Group's support functions including treasury, technology, property services, strategy, finance, risk, compliance, legal, human resources, and investor relations.

Accounting policies and inter-segment transactions
Measurement of segmental assets, liabilities, income and expenses is in accordance with the Group's accounting policies. Segment results are determined by including all revenue and expenses associated with each business. Transactions between business segments are conducted at arm's length and are eliminated on consolidation.

Segment net interest income is recognised based on an internally set transfer pricing policy, based on pre-determined market rates of return on the assets and liabilities of the segment.

## Major customers

Revenues from no individual customer amount to greater than $10 \%$ of the Group's revenue.
Geographic information
The allocation of revenue and assets is based on the geographic location of the customer. The Group operates in all Australian states and territories, providing banking and other financial services.

This is the case even if the full extent of the loss cannot be clearly deternined. C ustomers receiving COVID-19 eligible deferrals have been treated as performing in accordance with APRA guidance, unless other objective contrary evidence exists.
${ }^{2}$ Includes loans where the value of the security has reduced below the value of the outstanding loans but repayments are being made in accordance with the loan contract.
$\sqrt[3]{ }$ Includes loans where the value of the security has reduced below the value of the outstanding loans but partial repayments are being made in accordance with the loan contract.
${ }^{4}$ Restructured loans are facilities in which the original contractual terms have been modified for reasons related to the financial difficulties of the customers.
${ }^{5}$ Provision coverage is calculated as total provisions and reserves for doubtful debts divided by total impaired assets.

### 2.3.10.2 Capital adequacy

The Australian Prudential Regulation Authority (APRA) guidelines require capital to be allocated against credit, operational and market risk. Banks must maintain a ratio of qualifying capital (comprising Common Equity Tier 1, Additional Tier 1 and Tier 2 capital) to risk weighted assets. The Bank adopts the "standard model" approach prescribed by APRA to calculate the Bank's capital position.

### 2.4.4 Credit ratings

|  | Short term | Long term | Outlook |
| :--- | :---: | :---: | :---: |
| Standard \& Poor's | A-2 | BBB + | Positive |
| Fitch Ratings | F2 | A- | Stable |
| Moody's | P-2 | A3 | Stable |

On 27 April 2021, Standard \& Poor's G lobal Ratings (S\&P) revised its outlook on Bendigo and Adelaide Bank Limited (the Bank) to positive from stable and affirmed its long-term counterparty credit rating at ' $\mathrm{BBB}+{ }^{\prime}$ ' and the short-term rating at ' $\mathrm{A}-2$ '. The positive outlook on the Bank reflects the view that there is a one-in-three possibility that A ustralian banks will face reduced industry risks in the next two years. S\&P consider that the stronger system-w ide funding metrics could be sustained despite a modest weakening in the next three years as the COVID-19 driven rise in customer deposits through 2020 unwinds and the Reserve Bank of Australia's term funding matures. S\&P expect to raise the long-term issuer credit rating on the Bank by one notch to ' A -' if a view is formed that industry risks facing Australian banks have reduced susta inably, all else being equal.

On 16 May 2021, Fitch Ratings revised the outlook on the Bank's Long-Term Issuer Default Rating (IDR) to stable from negative, and affirmed the IDR at 'A-'. The Bank's other ratings were affirmed at the same time. Fitch expects a strong rebound in earnings and profitability metrics in 2021, supported by solid loan growth over the past 18 months, significantly lower impairment charges and a reduction in one-off expenses. Fitch still see some downward pressure on earnings in the medium-term from pre-pandemic headw inds, such as low interest rates and high competition. Even so, the Bank appears to be tackling these challenges through continued investment in business simplification and digitisation.

On 19 May 2021, Moody's affirmed the 'A3' long-term issuer and senior unsecured debt ratings of the Bank. Moody's has also affirmed the Bank's baseline credit assessment (BCA) of 'baa1' and short-term rating of 'P-2'. The ratings outlook remain stable. Moody's noted that the Bank's ratings reflect its very strong asset quality, good capital adequacy and good profitability. The Bank's asset quality is very strong with relatively low levels of non-performing loans. The Bank's non-performing loans ratio was $1.4 \%$ as at December 2020. While problems could emerge over the next 6 months as regulatory forbearance measures related to the COVID-19 pandemic have expired, they expect the ultimate level of problem loans and eventual credit losses will be manageable for the Bank.
