From 1 January 2015, following the introduction of APS 210, APRA requires ADIs to maintain a minimum 100% Liquidity Coverage Ratio (LCR). The LCR requires banks to hold sufficient High Quality Liquid Assets (HQLA) to meet net cash outflows over a 30-day period, under a regulator-defined stress scenario. The Group's LCR for the quarters ending 31 December 2016, 31 March 2017 and 30 June 2017 is presented in the following table (Table 20), using the Basel standard disclosure template and is based on a simple average of LCR outcomes observed during each period (i.e. 89 data points for the quarter ended 31 March 2017 and 11 data points for the quarter ended 31 December 2016).

The Group manages its daily LCR requirement in line with the regulatory minimum, with appropriate additional Board and management buffers that are set in line with the Group's risk appetite. Movements in the LCR are attributed to changes in net cash outflows and holdings of liquid assets. Table 20 details the quantum of movements impacting the LCR between periods. These differences between periods are not material and are in line with the Group's normal course of business. As at 30 June 2017, the Group held a diverse mix of liquid assets, with approximately 68% of total liquid assets in HQLA as defined by APRA. HQLA comprises cash, deposits with the Reserve Bank of Australia (RBA), Australian Semi-Government and Commonwealth Government Securities, as well as other securities eligible for repo with the RBA which provide additional liquidity and form a buffer against adverse liquidity events.

Cash inflows and outflows are as prescribed in APS 210 and are calculated by applying APRA-prescribed run-off factors to maturing debt and deposits and discount factors to inflows/assets.

The Group has a well-diversified deposit and funding base without undue concentration. The Group does not have significant derivative or currency exposures that would impact upon cash flows.

The Group manages LCR on a centralised level 2 basis (including Bendigo and Adelaide Bank and its Rural Bank subsidiary). The Group also prepares level 1 tabulation (Bendigo and Adelaide Bank and Rural Bank separately) for regulatory and internal management purposes, as Rural Bank is a Minimum Liquidity Holding (MLH) entity for APRA's purposes.
