Review of Operations

The Group continued to show strong growth in lending and retail deposits for the first half of 1998/99, which assisted the increased profit result for the period.

Profit after tax increased by 26.3% to \$8.5 million compared to the six months ending December 31, 1997. This result includes an abnormal profit on the sale of Data Advantage Limited shares. The after tax benefit of this transaction was \$1.1 million.

Group assets achieved strong organic growth, with a 9.3% increase for the period, driven by record lending approvals.

Total assets of the economic entity as at December 31 were \$3.465 billion.

Tier one capital increased strongly in the half-year from 6.08% to 9.47%, primarily due to increased share capital and an adjustment to the asset risk-weighting requirements determined by APRA.

Tier two capital declined in the period, mainly due to the conversion of convertible notes to permanent shares.

Asset quality continued to improve with net impaired assets declining to \$10.5 million, which represents 0.38% of gross loans. A final dividend of 11.5 cents per share, fully franked was paid on October 31, 1998 in respect of the year ended June 30, 1998. A proposed interim dividend of 10.5 cents per share, fully franked will be payable on April 30, 1999. The holders of the shares partly-paid to \$2.00 will not participate in this interim dividend.

Significant Changes in the State of Affairs

The following significant change in the state of affairs of the chief entity occurred during the half-year:

- (a) During the period, 5,589,029 convertible notes were converted to permanent shares, increasing share capital by \$18.7 million.
- (b) In December 1998 11,396,928 shares were allotted following a 1 for 6 rights issue, which added \$22.8 million to share capital.
- (c) During the period under review, an additional 952,214 shares were issued under the Staff share plan, which increased share capital by \$4.4 million.

In the opinion of the directors, there were no other significant changes in the state of affairs of the economic entity that occurred during the half-year under review not otherwise disclosed in this report or the consolidated accounts.

After Balance Date Events

On January 4, 1999 the economic entity invested \$42.5 million for the right to participate in a project with Futuris Corporation Limited and to acquire a 50% ownership of Elders Rural Services Limited (ERSL). This transaction involved the allotment of 4 million ordinary shares to Elders Limited, a wholly owned subsidiary of Futuris Corporation Limited. ERSL is the vehicle for a joint venture between Elders and Bendigo Bank, which will focus on providing a unique new financial service, combining Elders' understanding of agriculture and rural lending expertise with the banking skills, product and infrastructure of Bendigo Bank.

Rounding of Amounts

The amounts contained in this report have been rounded off under the option available to the company under ASIC Class Order 98/0100. The company is an entity to which this class order applies.

Independent Review Report

To the Members of Bendigo Bank Limited

Scope

We have reviewed the financial report of Bendigo Bank Limited for the half-year ended December 31, 1998, as set out on pages 2 to 7, including the Directors' Declaration. The financial report includes the consolidated financial statements of the consolidated entity comprising Bendigo Bank Limited and the entities it controlled at the end of the half-year or from time to time during the half-year. The company's directors are responsible for the financial report.

Our review has been conducted in accordance with Australian Auditing Standards applicable to review engagements. Our review was limited primarily to inquiries of the disclosing entity's personnel and analytical review procedures applied to financial data. These procedures do not provide all the evidence that would be required in an audit, thus the level of assurance provided is less than that given in an audit.
