Post-tax impact	\$1.6m

Under AIFRS, commencing 1 July 2005, movements in the general reserve for credit losses are reflected as an appropriation of retained earnings and therefore is not an expense in the income statement. However, the profit for 2005/06 does include an expense in relation to the increase in the collective provision, as required by AIFRS.

2.4.2 Interest margin

Net Interest income increased by 14% compared to previous corresponding period. This increase was driven by growth of \$1.3 billion in both interest earning assets and liabilities combined with an expansion of 20 basis points in gross interest margin and 10 basis points net of payments to community banks and alliances over the past 12 months.

Interest Margin %

For the half year since June 2006, interest margin before payments to community banks and alliances has increased 13 basis points which is 8 basis points net of these payments.

Growth in balances of loans and deposits sourced through community banks and alliances has continued during the half resulting in an increase of five basis points in the impact these margin payments have on interest margin.

An analysis of the movement in the net interest margin for the six months to December 2006 is set out in the chart below, which highlights the principal impacts over the period.

Analysis of interest margin (movement over the six months)

%

Interest margin reduced seven basis points from the movement in cash to bills spread over the half year. The three basis point funding mix fall was a result of the change in mix between retail and wholesale funding with retail funding falling slightly from 83.4% to 82.9% during the period. The recognition in interest income of revaluations relating to cash flow hedging generated a positive three basis points.

The remaining component of the movement for the period was an increase of 20 basis points associated with repricing and product mix changes during the half. The combined effect of portfolio repricing following the 0.50% increase in the official cash rate and continued strong performance in the Bank's ability to attract low cost retail deposits assisted net interest margin over the period.

Comments on Total income when compared to the previous corresponding period:

Net interest income increased by 14%. This increase was predominantly due to an increase in interest earning assets of \$0.75 billion, or 5.4% over the six months. Net interest margin before community bank and alliances increased by 10 basis points when compared to June 2006 half, whilst the rise in community bank/alliances share of net interest income contributed to 5 basis points impact on net interest margin.

Fees – asset products increased by 16% due to volume related increases in several lending-related fees including monthly service fee, loan re-negotiation fee and commitment fee.

Fees – liability products and electronic delivery increased by 10% due to increases in account transaction fees and electronic transactions, including ATM and merchant service fees.

Commissions – wealth solutions increased by 8% predominantly due to increased commissions from Sandhurst Trustees Common Funds.

Significant income items recorded in comparative periods represent the profit on deemed disposal of Select Managed Funds Limited shares \$15.5 million (June 2006) and accounting gain on change in equity accounted investment in Community Telco Australia Pty Ltd \$1.8 million (December 2005).

Share of associates' profit has increased by 8% predominantly due to an increase in the contribution from Elders Rural Bank.

Comments on individual expense categories when compared to the previous corresponding period are:

Staff and related costs increased 12% compared to previous corresponding period. This increase came as a result of wage increases flowing from the Bank's certified agreement and other salary increases, together with an increase in FTE numbers of 76 during the calendar year. The majority of FTE increases were in our retail division, reflecting the growth in business, the delivery network and business opportunities.

Information technology costs increased by 26%, predominantly reflecting increased computer hardware leasing, hardware repairs and maintenance and software maintenance costs flowing from system infrastructure upgrades including increased bandwidth in communication lines, the move to a state of the art data centre and the introduction of workflow management systems.

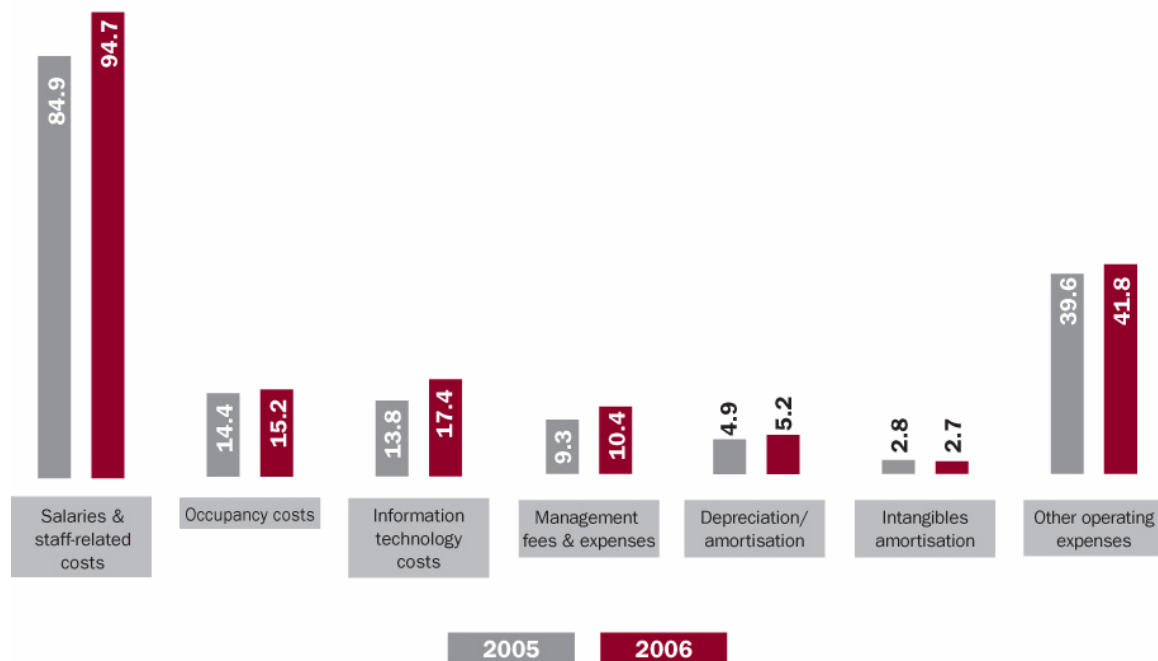

Significant expense item for 2006 is the expense relating to an issue of shares to staff under the Employee Share Plan (ESP) in October 2006. The items for comparative periods relate to the review of carrying value of equity investment portfolio \$5.4 million (June 2006) and relocation costs of Melbourne-based staff to a new building at Docklands \$0.7 million (December 2005).

2.4.10.1 Capital Adequacy

Capital adequacy %

Capital adequacy is calculated in accordance with regulations set down by APRA. APRA amended its prudential regulations in response to the implementation of AIFRS and these changes took effect on 1 July 2006. Therefore, capital adequacy calculations for December 2006 are prepared using AIFRS financial statements. As part of the transition to AIFRS based calculations many financial institutions were granted transitional relief adjustments by APRA until 31 December 2006. There is no AIFRS transitional adjustment included in the Bendigo Bank capital adequacy calculation.

3.6 Notes to and forming part of the financial statements

3.6.1 Corporate information

The half year financial report of Bendigo Bank Limited for the six months ended 31 December 2006 was authorised for issue in accordance with a resolution of the directors on 12 February 2007.

Bendigo Bank Limited is a company limited by shares incorporated in Australia whose shares are publicly traded on the Australian Stock Exchange.

The domicile of Bendigo Bank Limited is Australia.

The Group's functional and presentation currency is AUD (\$).

3.6.2 Summary of significant accounting policies

The half year financial report does not include notes of the type normally included in an annual financial report and therefore cannot be expected to provide as full an understanding of the financial performance, financial position and finance and investing activities of the consolidated entity as would a full financial report.

It is recommended that the half year report is read in conjunction with the Annual Financial Report of Bendigo Bank Limited as at 30 June 2006, which was prepared based on Australian Accounting Standards, together with any public announcements made by Bendigo Bank Limited and its controlled entities during the half year ended 31 December 2006 in accordance with the continuous disclosure obligations arising under the Corporations Act 2001.

3.6.2.1 Basis of preparation

Bendigo Bank Limited is a "prescribed corporation" in terms of the Corporations Act 2001. Financial reports prepared in compliance with the Banking Act are deemed to comply with the accounts provisions of the Corporations Act 2001.

The half year financial report is a general purpose financial report which has been prepared in accordance with the Banking Act, applicable Accounting Standards including AASB 134 "Interim Financial Reporting", Corporations Act 2001 and the requirements of law so far as they are applicable to Australian banking corporations.

The half year financial report has been prepared in accordance with the historical cost convention, except for investment properties, land and buildings, derivative financial instruments and available-for-sale financial assets which are measured at their fair value.

The amounts contained in this report and in the financial statements have been rounded off to the nearest \$'00,00 (where rounding is applicable) under the option available to the Company under ASIC Class Order 98/0100. The Company is an entity to which the Class Order applies.

For the purposes of preparing the half year financial report, the half year has been treated as a discrete reporting period.

3.6.2.2 Statement of compliance

The half year financial report complies with Australian Accounting Standards, which include Australian equivalents to International Financial Reporting Standards (AIFRS). Compliance with AIFRS ensures that the half year financial report, comprising the financial statements and notes thereto, complies with International Financial Reporting Standards (IFRS).

3.6.2.3 Changes in accounting policies

The accounting policies are consistent with those applied in the previous financial year and corresponding interim period, except that the value of assets relating to properties recognised by Homessafe Trust have been reclassified from Financial Assets – held to maturity to Investment property to better reflect the nature of these assets. Comparative figures have not been restated as the values are not material.

3.6.2.4 Changes in accounting estimates

The useful life of air-conditioning plant has been increased from 4 years to 10 years for acquisitions from 1 July 2006. The revised useful life is based on the factors that the group purchases air conditioners of good quality and plant is well maintained through its life. This change will not have a material impact on trading results, but will reduce depreciation expense for air-conditioning plant when compared to the previous useful life.

Pre-tax trading results for the current financial period have not been materially affected by this change.

The effect in future accounting periods is not disclosed as estimating it is impractical.

3.6.3 Segment information

The group's primary reporting format is business segments and its secondary format is geographical segments.

The operating businesses are organised and managed according to the nature of products and services provided and the key delivery channels, with each segment representing a strategic business unit that offers a different delivery method and/or different products and services.

3.6.13 Capital Adequacy and ACE ratio

a) Capital adequacy

The Australian Prudential Regulation Authority (APRA) guidelines require capital to be allocated against credit and market risk. Banks must maintain a ratio of qualifying capital (comprising Tier 1 and Tier 2 capital), to risk weighted assets, and off-balance sheet exposures determined on a risk weighted basis, of which at least half must be Tier 1 capital. The Bank adopted the "standard model" approach prescribed by APRA to measure market risk. The resultant capital after applying a numeric conversion factor, forms part of risk-weighted assets.

APRA amended its prudential regulations in response to the implementation of AIFRS and these changes took effect on 1 July 2006. Therefore, capital adequacy calculations for December 2006 are prepared using AIFRS financial statements. As part of the transition to AIFRS based calculations many financial institutions were granted transitional relief adjustments by APRA until 31 December 2007.

There is no AIFRS transitional adjustment included in the Bendigo Bank capital adequacy calculation.

Independent review report to the members of Bendigo Bank Limited

Scope

The financial report and directors' responsibility

The financial report comprises the balance sheet, condensed income statement, cash flow statement, statement of changes in equity and accompanying notes to the financial statements for the consolidated entity comprising both Bendigo Bank Limited ("the company") and the entities it controlled during the period, and the directors' declaration for the company, for the period ended 31 December 2006.

The directors of the company are responsible for preparing a financial report that gives a true and fair view of the financial position and performance of the consolidated entity, and that complies with Accounting Standard AASB 134 "Interim Financial Reporting", in accordance with the *Corporations Act 2001*. This includes responsibility for the maintenance of adequate accounting records and internal controls that are designed to prevent and detect fraud and error, and for the accounting policies and accounting estimates inherent in the financial report.

Review approach

We conducted an independent review of the financial report in order to make a statement about it to the members of the company, and in order for the company to lodge the financial report with the Australian Stock Exchange and the Australian Securities and Investments Commission.

Our review was conducted in accordance with Australian Auditing Standards applicable to review engagements, in order to state whether, on the basis of the procedures described, anything has come to our attention that would indicate that the financial report is not presented fairly in accordance with the *Corporations Act 2001*, Accounting Standard AASB 134 "Interim Financial Reporting" and other mandatory financial reporting requirements in Australia, so as to present a view which is consistent with our understanding of the consolidated entity's financial position, and of its performance as represented by the results of its operations and cash flows.

A review is limited primarily to inquiries of company personnel and analytical procedures applied to the financial data. These procedures do not provide all the evidence that would be required in an audit, thus the level of assurance is less than given in an audit. We have not performed an audit and, accordingly, we do not express an audit opinion.

Independence

We are independent of the company, and have met the independence requirements of Australian professional ethical pronouncements and the *Corporations Act 2001*. We have given to the directors of the company a written Auditor's Independence Declaration, a copy of which is included in the Directors' Report. In addition to our review of the financial report, we were engaged to undertake other services. The provision of these services has not impaired our independence.

Liability limited by a scheme approved under
Professional Standards Legislation

Statement

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the financial report of the consolidated entity, comprising Bendigo Bank Limited and the entities it controlled during the period is not in accordance with:

- (a) the *Corporations Act 2001*, including:
 - (i) giving a true and fair view of the financial position of the consolidated entity at 31 December 2006 and of its performance for the period ended on that date; and
 - (ii) complying with Accounting Standard AASB 134 "Interim Financial Reporting" and the *Corporations Regulations 2001*; and
- (b) other mandatory financial reporting requirements in Australia.
